

This weather is the worst
WE CAN'T FIX THE WEATHER, BUT WE CAN KEEP YOU COMFY IN IT.

It's looking a little wet out there

WATER REPELLENT (Up to 1000mm)

*Fully or critically
seam sealed

Our water protection rating levels are a guideline ONLY to assist in choosing the protection you want and the product you need. The protection experienced is dependent upon weather conditions including the level of precipitation, wind and humidity, as well as personal reactions to these factors, which all affect individual comfort. Activity will also influence personal comfort levels. These levels are guidelines determined from test results performed on fabrics under controlled conditions at internationally accredited third party laboratories. These rating levels are intended for reference only.
