

The TreeBlend Collection

The super-comfy TreeBlend fabric from tentree is soft, lightweight and extra breathable. But what's even more special is what's inside.

What It's Made Of

TENCEL™ is a fiber made of responsibly sourced wood pulp, and produced in an entirely "closed-loop" process with zero waste.

Organic cotton is made sustainably and responsibly, so the planet feels just as good as you do while wearing it.

Recycled polyester takes discarded plastic from landfills and gives them new life in your wardrobe.
