About

tentree makes Earth-First essentials using the most sustainable (and comfortable) materials in the world. Every time you purchase an item, 10 trees are planted. By planting trees for every purchase, tentree is making big change accessible to everybody and showing the lasting impact one small choice can have.

Mission

Everything tentree does stems from how to do better by our planet — like planting trees. The company plants trees because it's one of the best ways to create a more sustainable future. But over the years, tentree realized that the journey doesn't start and end with planting trees. The company is constantly looking at innovative ways to make apparel with the smallest possible footprint and create more circular supply chains.
