

Since 1913

On September 2, 1913, William Stanley Jr. invented the all-steel vacuum bottle, fueling countless coffee breaks, workdays, outdoor adventures, and memories.

Stanley's wild imagination lives on today as the brand continues to fuse invention and originality through products that promote sustainability, hydration, and the enhancement of life outdoors.

Sustainability At Stanley

For over 100 years Stanley's brand values have always been centered on sustainability — to create original and inventive products that deliver on integrity, functionality, and reusability. Stanley believes that through invention and originality they create a more sustainable, less disposable life and world.

BUILT FOR LIFE™

Stanley's design principles prioritize functionality and durability. Stanley products are created and manufactured to last a lifetime. And they stand behind that with their Built for Life[™] lifetime warranty.

VALUES-LED MANUFACTURING

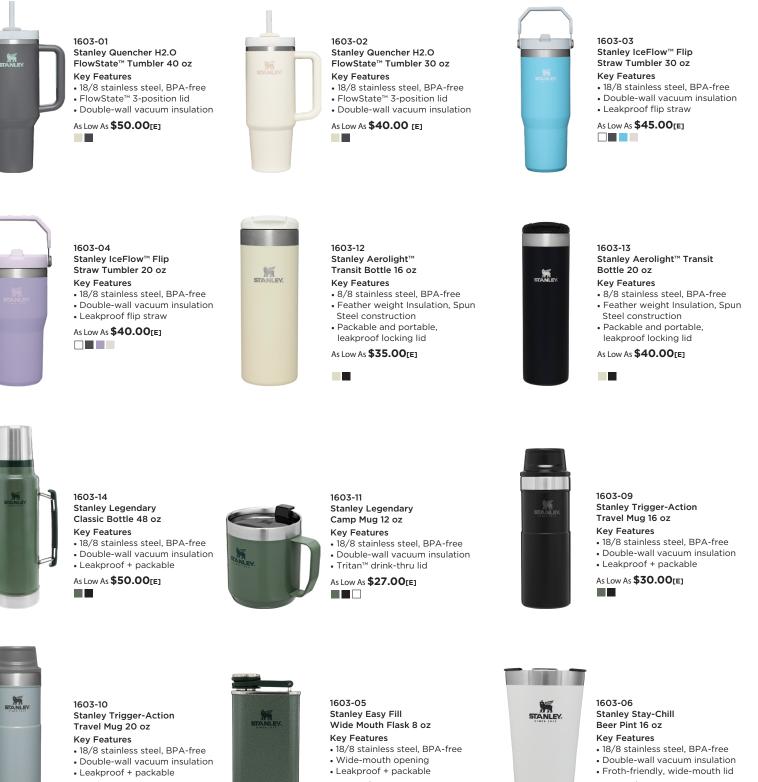

Stanley seeks suppliers that meet their high standards of environmental responsibility. They work closely with factories to meaningfully reduce energy use in their operations and reward those who show continuous improvement year after year.

COMMUNITY

Stanley contributes more than 1% of their net income to causes related to nature conservation and sustainability, equitable and empowered access to the outdoors, and food security.
