

**TOPO  
DESIGNS**

## Made For Anywhere On Your Map.

Topo Designs has vision to inspire more people to get outside by designing the outdoors seamlessly into life. They are a Colorado-based outdoor brand offering sustainable, durable packs and accessories, founded with the fundamental belief that everyone experiences the outdoors differently.

The brand wants to get everyone outside without feeling encumbered by the traditional notions that hold them back. The brand is rooted in mountain culture but loves exploring cities and world travel, and they celebrate these radical differences by offering products that help people get confidently outside on their own terms, regardless of location.

## Commitment To Sustainability

### People

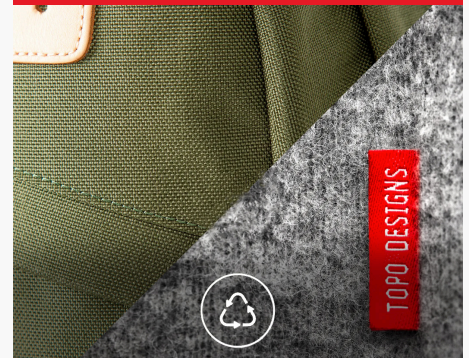

All of the brand's local and international manufacturing partners adhere to Fair Labor guidelines and maintain certifications and best practices needed to fully support their expectations as they relate to the health and well-being of our partner workers.

### Process

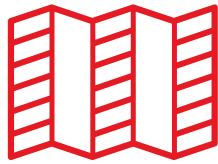

Topo Designs specifies the use of low-impact dyes, water-based inks and minimal additives during washing and drying processes, focusing on technologies that reduce energy consumption and are continuously increasing efficiencies within their logistics to reduce carbon emissions.

### Product

In addition to the use of recycled materials, Topo Designs is driving towards procuring 100% of their natural fiber fabrics from regenerative and responsible sources and reducing the need for single-use plastics by eliminating them from packaging.
