

# Givee's All-In-One Formula: Simplified Gifting, *Better Results*

NO COMPLICATED LOGISTICS, NO INVENTORY, NO GUESSWORK.

Designed to fit your unique needs, Givee is simple to set up and use, providing a one-stop, tailored, gifting experience while saving you (and your customers) time, complexity, and expense. It's a better experience from start to finish, made simple.

## A Better Gifting Experience for *Them*

### Quality you can count on:

When you build a Givee storefront, rest assured that you are providing your customer a terrific gifting experience. With a streamlined interface and a customizable look & feel, Givee offers a unique, high-quality experience that'll keep them coming back.

### Personalization at every stage:

Today's customers expect tailored, more personalized experiences. And, Givee gives them exactly what they're looking for.

## A Better User Experience for *You*

### No tech, no problem:

Don't have an in-house developer? That's never a problem with Givee. Set up and customize a store for customers in minutes — no coding, long wait times, or lengthy intake forms required.

### No guesstimation, no waste:

With Givee, there's no guessing how many water bottles or notebooks a customer will need, because we create gifts as they're ordered, (so no handling unused inventory after an event, either). That also means fewer unused and unwanted gifts left behind in hotel rooms or discarded and sent to landfills.

### The quality you need at every stage:

What you see is what you get - and that's quality and speed! You won't work with additional fulfillers and suppliers, so you'll never waste time tracking down the right support person when you have a question. It's all us, all the time, which means you're assured quality and attentiveness at every step.

## Getting started with Givee is *easy*

### 1. CREATE AN EVENT STORE

Quickly create a storefront with our setup wizard. Configure its look & feel with your colors, logos and more. No developers needed!

### 2. PICK & DESIGN PRODUCTS

Select from our curated catalog of high-quality products and customize them with artwork.

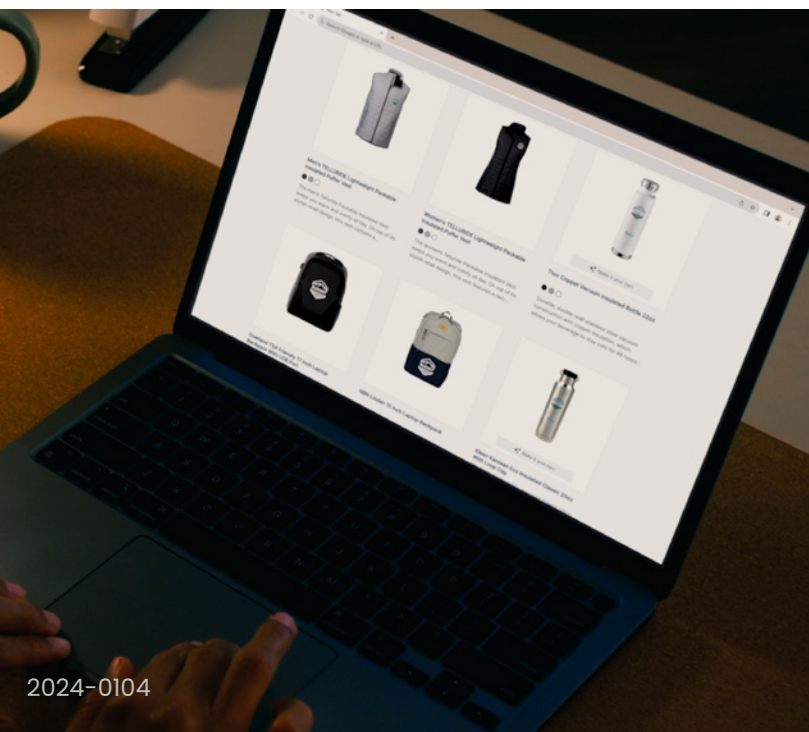

### 3. SHARE

Invite guests to select and personalize their gifts. We'll take care of the rest.

## Happy giftee, *happy customer*

When attendees choose and personalize their own gifts, they're more likely to keep them. More importantly, they're also more likely to use them. And that means your customer's logo will be smiling back at them often, ensuring it's always top-of-mind.
