

Ocean bottle 1 for 1000

Every Ocean Bottle sale funds the collection of 1,000 plastic bottles before they reach the ocean.

Small bottle. Big Impact.

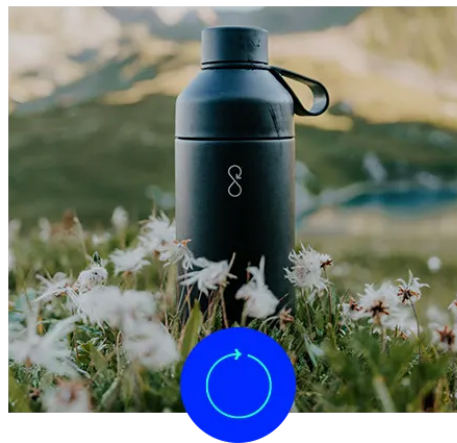

Ocean Bottle partners with organizations to open plastic collection points in areas where plastic pollution is worst and enable collectors to exchange plastic for money and access social resources such as healthcare, education and financial security.

Why Choose Ocean Bottle

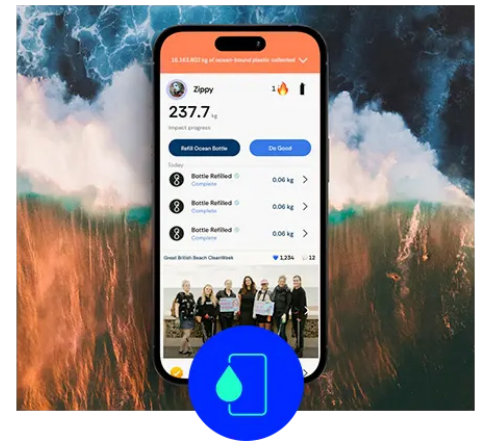

1 for 1000

With the sale of every Ocean Bottle they collect the equivalent of 1,000 ocean-bound plastic bottles in weight.

Made With Recycled Materials

The bottles are crafted with a minimum of 67% recycled materials. The brand avoids composites, and every product can be fully disassembled for recycling – ensuring a true circular solution.

The Ocean Bottle App

Owning an Ocean Bottle unlocks the app, letting you track refills easily. Each logged refill funds the collection of 5 plastic bottles before they reach the ocean. Use your bottle daily and turn hydration into real, lasting ocean impact.
