

PASSION & EMOTION

SINCE 1915

In 1915, in a small Geneva workshop, a handful of passionate artisans worked at the Fabrique Genevoise de Crayons. A century later, the independent and family-owned Maison Caran d'Ache continues to write its story with the same passion.

As the only manufacturer of drawing and writing instruments in Switzerland, Caran d'Ache embodies the heritage of exceptional craftsmanship and the ambition of limitless creativity.

Mission

To design and manufacture long-lasting writing and drawing instruments in its Geneva workshops that inspire creativity, self-expression, and meaningful shared experiences.

Expertise

Internationally renowned for the writing experience they offer through the elegance of their lines, the quality of their materials, and the technical brilliance of their design.

Partnerships

Caran d'Ache partners with organizations that share its passion for innovation and creativity, including Paint a Smile, a foundation dedicated to brightening healthcare and hospital environments through murals.
