Apparel Decoration Innovation

DECORATION METHOD	THE LOOK	IDEAL FABRIC	KEY FEATURES	HOW IS IT ACHIEVED?	AVOID
1 Deboss	■ Tone-on-tone ■ High-end, 3D appearance	■ Polyester fabrics only ■ Ideal for waterproof fabrics	■ Eco-friendly technique ■ Enables precision for detailed logos ■ Works on all colors ■ Unlimited washability	Artwork stamped into surface using heated custom metal dye	■ Cannot apply over zippers
2 Digital Transfer	■ Vibrant colors ■ Clear, precise detailed look	■ Offered on most fabric types ■ Good alternative to embroidery for thin garments	■ Unlimited # of vibrant colors ■ Reproduces text down to 8-pt font ■ Superior clarity & precision	Artwork digitally printed to film; transferred to the fabric	■ Cannot apply over zippers ■ Not offered on some poly/spandex or waterproof fabrics
3 Embroidery	■ Class, professional, sophisticated	■ Available on full PCNA apparel line	■ Durable, withstands many washes ■ 300+ Isacord thread colors available	Artwork stitched directly into the fabric	■ Cannot apply over zippers ■ Maximum thread color count of 15
4 HXD	■ Unique 3D appearance ■ Bold, high-impact look	■ Offered on most items	■ Multiple finishes available ■ Added dimension to artwork ■ Can be applied over seams (on hats only)	3D emblem applied directly onto fabric	■ Restricted Imprint size (12" squared) ■ Cannot apply over zippers ■ No seams (except hats)
5 Mixed Media (2 Methods)	■ 2 deco methods layered into 1 ■ Bold impact	■ Polyester fabrics only	■ Layered, intricate design	Laser (always) Overlayed with either 1. transfer or 2. embroidery	■ Same as laser & either embroidery or transfer
6 Laser	■ Tone-on-tone, elevated look ■ Smooth, glossy finish	■ Polyester fabrics only	■ Can decorate over zippers and pockets ■ Detailed and precise ■ Unlimited washability	Artwork laser etched, burning pattern into the fabric	■ Not offered on white fabric ■ Not ideal for extremely detailed logos, heathered fabrics or dark fabrics
Sublimation (infusion)	■ Full-color vibrant designs on white ■ Muted, tonal look on color	■ CMYK deco method ■ Polyester/cotton blend fabrics	■ Creates a breathable & comfortable piece ■ Artwork can be distressed to give it a retro feel ■ Unlimited # of colors	Logo infused into fabric and becomes a part of it	■ Cannot use white ink ■ Cannot print any lighter than the base color of the fabric
